 EMAIL

Dear Parents & Carers

As you are no doubt aware the GCSE and A level exams scheduled for this summer have been cancelled and the school will close until further notice at the end of today.

We are devastated that this is the way our Year 11 students time at TGS has come to an end but we wanted to reassure you that we will continue to support them in any way we can.

When we have been provided with the information from the government as to how students will be awarded their exam grades we will inform you. Our student support team (ahunt@tgschool.net) and careers advisor (kosborne@tgschool.net) are also available via email.

We will also, when we are able, arrange a graduation ceremony and the Prom to mark their time as part of our community. In addition, can we also reassure you that any student who has applied to our Sixth Form and has been offered a conditional place that their place is secure with our prior conditions.

Thank you for your support and understanding during this extraordinary time. During the coming weeks TGS will continue to open to provide education for those children whose parents are key workers in the battle to control the pandemic. Should you wish to contact any of the senior team by telephone we will remain available.

We will keep in contact with you via email and the school website in the coming weeks.

Kind regards

Thomas Gainsborough School
