1. INTRODUCTION

This policy has been developed to recognise, promote and support students, who in whatever manner, offer care and support to their family members. It is acknowledged that some young carers will experience difficulties in relation to attendance, attainment and may experience difficulties accessing further education and employment. The policy aims to highlight the identification of young carers and the support available within school and how they can be referred to outside agencies.

2. DEFINITION

A Young Carer has been defined as a child under the age of 16 who regularly gives physical, emotional or financial support to another family member. A Young Adult Carer is someone who is between the ages of 16-24 who regularly gives physical, emotional and financial support to a friend, relative or partner.
